EXPERIENCE

Software Engineer Trainee

Leadrat CRM (Bangalore Onsite Role)

Sep 2024 – Present

- Collaborated with different teams to deliver SaaS products tailored to real estate clients' requirements.
- Implemented functionality changes based on client and company needs, ensuring the product aligns with business goals.
- Made functionality changes based on company requirements to enhance product features.
- Collaborated with teams to build a new product from scratch for Leadrat CRM, expanding its scope to serve real estate clients and other businesses.

PROJECTS

MSG APP (Full-stack)

[Link](#) Aug 2024

Skills: Next.js, React, Tailwind CSS, MongoDB, Next Auth, Resend, OpenAI, TypeScript

- Created a platform for anonymous messaging, allowing users to send messages without revealing their identities.
- Implemented secure user authentication, email verification, and AI-generated message suggestions.
- Leveraged Next.js for server-side rendering, Tailwind CSS for responsive design, and integrated TypeScript for type safety.

BLOG (Full-stack)

[Github](#) July 2024

Skills: React, Redux, Appwrite, JavaScript, HTML/CSS, Tailwind CSS, React Router, Redux Toolkit, RESTful APIs

- Built a secure full-stack web app using React, Redux, and Appwrite, enabling users to create, manage, and delete blogs.
- Leveraged Redux Toolkit for efficient state management and RESTful APIs for seamless data integration.
- Designed a responsive front-end with Tailwind CSS for intuitive navigation and dynamic content management.

YOUTUBE (Backend)

[Github](#) June 2024

Skills: Node.js, Express.js, MongoDB, Mongoose, bcrypt, Cloudinary, JSON Web Tokens, Multer, Mongoose Aggregate Paginate

- Developed a backend for a YouTube-like app with user, video, and playlist management.
- Implemented CRUD operations for comments, likes, views, tweets, and subscriptions.
- Included a dashboard for user statistics and a server health check endpoint.
